

We provide your team with Certified Trainings, In-Depth Consultations, and Quality Management Services

Logistical Leaders (LoL) of Innovations LLC's purpose is to provide clients with a professional service for administrative and operational business-related matters. LoL can identify the strengths, weaknesses, opportunities and threats (SWOT Analysis) to ensure businesses are kept in compliance with internal and/or external policies, state rules and regulations. Our consultative services consists of but are not limited to: financial reviews, early childhood environmental safety and health trainings, technical assistance and quality assurance (TA/QA), facility inspections, investigations, etc.

HI, I AM IDA HERE TO SUPPORT YOU AND YOUR TEAM

Leading a team is not an easy job. The accelerating pace of change, the ever-greater demand for inspiring yet empathetic leadership all while needing to focus on organizational structure, state compliance and regulations, to deliver measurable results can leave you feeling anxious, stressed, and frustrated.

But not to fret, there are proven approaches through trainings and consulting sessions to address these issues and more. As someone who has over 12 years experience in Environmental Safety and Health, I understand first-hand what it is like to deal with these frustrations.

With my support, you will be able to:

- * Identify your team's strengths, weaknesses, opportunities, and treats
- * Learn strategic methods to keep your team in compliance with state rules and regulations
- * Set and execute breakthrough strategies and more..
