

## INSPECTIONS

### Environmental Safety and Health Inspections

Our objective is to improve operations and to identify any potential environmental safety and health factors of non compliance, and recognize the risk factors and consequences when in non-compliance with local, state and federal guidelines. We aim to promote and enhance effective safety and health measures in early childhood environment setting.

## TRAININGS

### Environmental Safety

#### Environmental Safety and Health

Hazard Mapping for Head Start Programs (Unforeseen Hazards -OBSERVATIONS)

Facilities, Supplies, Equipment, and Environmental Health  
(What the NATIONAL HEALTH AND SAFETY PERFORMANCE STANDARDS says)

Creating Safe and Engaging Learning Environments (Safety & Health Factor  
RECOMMENDATIONS:
